Dear Gateway Graduate,

It is with great pleasure that we send you our 1992 Schedule of Programs, and announce that the Monroe Institute has two new graduate programs - **LIFELINE**, and **GUIDELINES II**. Following is a brief description of these powerful and exciting programs.

LIFELINE is conducted in focus levels 21, 22, 23, 25 and 27 - the states of being we encounter immediately after we end this life sojourn. Here you learn to meet and communicate with those who are active and alive in these states of being, and also learn to offer assistance to those who need help in such levels. Participants will also learn to use a special dolphin energy - either individually or in a team effort - to heal both self and others.

GUIDELINES II has a complete new format and exercises. In addition to exploration of your total self and creating an on-going communication with your Inner Self Helper (ISH), the program gives direct training in the early stages of Out of Body training. This is the first Institute session that specifically provides these methods. Training in using a special dolphin energy- either individually or in a group effort - to heal both self and others is also an aspect of Guidelines II.
